

BEST BOARDING KENNEL

LIABILITY RELEASE

THIS RELEASE WILL REMAIN IN EFFECT THROUGH DECEMBER 31st

Boarding can be a very exciting and pleasant experience for your pet. It can also be stressful. To eliminate as much of this stress as possible, we suggest that you make your check-in as short as possible. If you are stressed your pet will sense that and reflect your demeanor.

At the checking in you will be asked to complete the below release. Feel free to download a copy and read/fill out in advance making the process easier upon your arrival.

First and foremost, the safety and well being of your pet(s) is our highest importance. Insuring that your pet remains safe and well cared for is our first responsibility and as such we take it very seriously.

FACILITY WAIVER

As owner of _____, I understand Best Boarding Kennel and it's owners, employees and independent contractors will exercise due care to protect the health and safety of my pet while in their care for boarding and/or grooming. I understand the concept of my pet interacting with the staff and as always, with the interaction of animals there is a chance of injury. I assume all risk of injury to my pet while in the hands of Best Boarding Kennel, so long as reasonable care is taken to prevent any unnecessary injury, death or loss. By using Best Boarding Kennel, I agree not to file legal charges against Best Boarding Kennel, owner's, employees or independent contractors for any injury, death or loss of my pet. I hereby waive and release Best Boarding Kennel, owners, employees or independent contractors from any and all liability of any nature for injury, death or loss of my pet resulting from Best Boarding Kennel's actions or on the grounds or surrounding area of Best Boarding Kennel.

DOGS HEALTH

I represent that _____, is in good health and is fully vaccinated for required immunizations. I understand canine cough is a common and highly contagious respiratory disease. Unfortunately, it is impossible to entirely safeguard against canine cough. Even after being vaccinated, dogs may still acquire canine cough (although usually a less severe form than they would have otherwise). The

virus can incubate for up to two weeks, meaning that dogs who appear perfectly healthy during their stay may be carrying one of the viruses that cause a problem. The vaccination cannot protect your dog from all the illnesses that contribute to canine cough, but we require all dogs to be vaccinated against the most common strains.

Important Points

- canine cough has an incubation period of between two and ten days. That means even a healthy looking dog today could come down with canine cough in a week.
- dogs can get canine cough even if they have been vaccinated against it
- canine cough can be contracted anywhere dogs are in close proximity to one another

I am aware that, even though my dog has been vaccinated against the virus that is no guarantee they will not contract a strain of the disease. By initializing below, I release Best Boarding Kennel from any liability for any veterinarian medical care arising from suspected canine cough infections.

ABANDONMENT

I understand that if no contact is made with Best Boarding Kennel within 14 days of stated pickup date, _____ will become the property of Jennifer Whitby Best/Best Boarding Kennel

GROOMING

Due care will be taken with _____ for his/her safety and the groomers safety. If it is necessary for the safety of the pet and the groomer, muzzles, leads, slings, straps etc. will be humanely used and are acceptable.

I am aware that if _____ does not respond to the groomer and remain still during the grooming procedure accidents can happen, such as nicks from clippers/scissor or nail trimming, etc.

I assume all liabilities, financial or otherwise for the behavior of my pet relating to the care, control, health and/or safety arising during services performed by the groomer or Best Boarding Kennel Owners, employees or independent contractors.
